Firemen

Set May 4 For Annual Ball

The Exposition Dance—the biggest social event of the year for Daly City—is less than two weeks away!

Saturday, May 4, all Daly City will dance at the sixth annual Firemen's Ball at Colombo hall, Colma.

Sponsored by the Widows' and Orphans' association, D. C. F. D., the Exposition Dance is requiring the close attention of all fire officials.

"The committees are doing a wonderful job," said Chief Andrew P. Chesney today. "We intend to make this dance a bigger and better one than any in the past."

There will be two large cash door prizes, and Johnny Dell and his orchestra will supply the music.

Battalion Chief Elmer Kennedy is this year's floor manager. Tickets are available from any member of the fire department.

"We especially appreciate the cooperation which local merchants have given us," said Chief Chesney in discussing the affair today.

Full details of committees and arrangements will be announced next week.

Parents

Visit Daly City Schools This Wk.

Class room doors are open to parents and visitors this week in observance of California Public Schools Week.

Parents may see their children at the everyday task of acquiring an education and may observe the enormous strides taken by educational procedure in the last decade.

In the local grammar schools, there will be no special programs or arrangements since it is the desire of the school board for parents to see class rooms under normal conditions. R. L. Crane, district superintendent of schools, extended a cordial welcome to visitors during the week.

At Jefferson Union high school, a special program was held last night with Harold J. Dieken as chairman.

Included on the program were selections by the high school orchestra and the a capella choir under the direction of Oscar J. Busch.

In addition to remarks by the chairman, Dr. Rex Turner, principal of the Fremont high school in Oakland, delivered a brief address.

Lembi's Indians of Rhythm and Cowboy band presented band numbers, solos and dances.

A Pledge of Allegiance, led by Carl Anderson, commander of Daly City Post No. 410, American Legion, closed the meeting.

During the remainder of the week there will be an exhibit of arts and crafts by Mrs. Anderson's class, and an exhibition of ceramics by the WPA Recreation class under the direction of Miss Jehan Dorn. The public is invited to view both of these displays.

Council

Mayor Appoints Committees

Appointment of city committees for the coming two years—the presentation of a new gavel to Mayor John J. Fahey—discussion of the South End streets—and a resolution calling for detailed financial reports of the municipal busses—these were the highlights of Monday night's council meeting.

Joseph Dolan, president of the Daly City Community Welfare club, presented the gavel to Mayor Fahey.

Next order of business, reading of communications, brought out several applications for city jobs and a letter from George E. Brenner, bandmaster, requesting the aid of the council in furnishing a suitable place for the Daly City band to practice.

Mayor Fahey appointed Councilmen Henry Sundermann, Edmund T. Cavagnaro and Paul G. Selmi as a committee of three to meet with Brenner.

Plunging into a discussion of the South End streets project, City Attorney R. A. Rapsey reiterated that everything had been done that was possible in the legal aspects of the matter. He said he expected definite action of some sort before next Monday.

Councilman Selmi offered a motion that an auditor be requested

Air Charges In Relief Set-Up

San Mateo County's relief situation took a sensational turn at a San Francisco hearing Saturday when a Colma relief client accused the county SRA director of forcing him to sign an untrue affidavit under threat of being dismissed from the relief rolls.

Elmer W. Coole told a special session of a State Assembly investigating sub-committee that A. N. Paterson, San Mateo County SRA director, threatened to "throw me off relief if I didn't sign."

Coole referred to an affidavit introduced Thursday by Paterson in the sub-committee hearing in which Russel Kiltin of San Bruno, newly employed investigator for the San Mateo County Unemployment Relief Committee, was accused of advising Coole to falsify his reports of income.

The SRA client this morning said that he had signed under protest after Paterson had threatened him with expulsion from the relief rolls.

Paterson denied threatening Coole and said the case had come

COUNTY NEWS IN REVIEW

Population Doubles

San Mateo county's population has almost doubled since 1930, results of a questionnaire of the California Real Estate association revealed today.

In 1930, the county's population was 77,405 persons, according to the census taken then. Since then, it has jumped to 135,000, according to information received from chambers of commerce, individual real estate dealers' reports, county officials and business groups.

Democrats Increase Lead

San Mateo county Democrats have materially increased the narrow lead they held over the Republicans last November, it was disclosed last week when County Clerk W. H. Augustus' office completed a count of the voters eligible to cast ballots in the May 7 presidential primary election.

Showing that the total registration is now 58,375 (compared with 56,603 last fall), the new compilation gives the Republicans a total registration of only 25,089, compared with Democrats' 31,090.

When registration closed last fall for the November 7 election the Republicans had 26,486 registered voters, the Democrats 27,972.

The lead of the Bourbons over the G. O. P. members thus is now 6,001, compared with 1486 in 1939. In 1938 the Democrats had a lead of 5,804.

Pursuit Planes Crash

A head-on crash between two speedy pursuit planes at an altitude of 8000 feet near Moffett field last Wednesday gave spectators and pilots the kind of thrill usually reserved for motion pictures.

The ships were engaged in combat maneuvers—known less technically as a "dog fight"—when

The superintendent's topic was "What the Public School Is Doing for the Exceptional Child."

Cowboy Band Chalks Up Success

Lembi's Cowboy band chalked up two more successful appearances last week, one before the Bayshore PTA and the other before the American Legion here.

The entire Indians of Rhythm organization played the incidental music, Sunday, for the operetta "Snow White and the Seven Dwarfs," presented by the students of St. Cecelia's school at Ingleside. More than thirty additional numbers were played for an audience which encored time after time.

Last night the Indians participated in the Public Schools week program at Jefferson, and they will play for the San Bruno American Legion, May 11.

New members of the swingsters include Harlan Ferrando, Evelyn Ciemoli and George Winans, soloists, and Gloria Tooth and Eugene McLean, pianists.

Frank Rivas and Joe Armanino, members of the Cowboy band, appeared on the Romance amateur hour on KRE Sunday with an accordion and guitar duet.

Wanted: Members For Daly City Band

"Have you ever played in a band? If you have—you're certainly in demand!" said George Brenner today in making an appeal to all citizens who have had band experience to join the local forces at once.

Bandmaster Brenner explained that the Daly City band has received an invitation to play for the Grand Fiesta parade which celebrates the opening of the Exposition next month. All available local talent is needed, he said.

Weekly rehearsals are held at 8 p. m. each Tuesday at Fire Station No. 1, Hillcrest drive and Santa Barbara avenue. The band's repertoire includes both popular and standard selections, he said, and affords excellent recreation for members.

Jeff Students Take Part In Council

Accompanied by Mrs. Dorothy Pendergast, instructor, fourteen delegates of Jefferson Union high school will participate in the spring council of the California Scholarship Federation to be held Saturday at St. Mary's college.

Jefferson contestants will enter the girls' and boys' oratorical and literary championships.

Prominent speakers of the day will be Brother Leo, professor of literature; Dr. Louis F. LeFevre, professor of European history, St. Mary's college, and Dr. Aurelia Reinhardt, president of Mills college.

Theme of the convention will be "Scholarship and Democracy." The subject will be debated in oratorical contests throughout the day. Delegates will display hobbies, arts and crafts, and prizes will be awarded in all divisions.

City To Aid In Spring Clean-Up

Spring cleaning time has rolled around once more.

In recognition of this fact, city officials will again help the householder to dispose of rubbish and trash that has accumulated during the winter months.

Rubbish from back-yards, trash in basements, forgotten bric-a-brac stored in attics, all will be taken away by a city truck free of charge.

"Last year's spring cleaning event received the support of the entire community," says Fred A. Collins, deputy health officer, "and all residents are invited to take advantage of this assistance in their spring cleaning again this year."

Details of trash collection will be announced next week.

Maria Montessori, the Italian educator, studied at the University of Rome and graduated in medicine in 1894, being the first woman in Italy to do so. She then took up the subject of educating defective children. From the experience thus acquired, she came to the conclusion that similar methods might be applied to normal children of a lower age, and after a series of experiments on a small scale she extended them to a large number of children in private and public nursery schools in Rome. Her ideas on education have been set forth in several books which have been widely translated.

You'll be *No. 1* in the *Hit Parade!*

Look at Buick First... you can afford it and you can't know what your 1940 money ought to buy until you've seen this really modern automobile.

The Buick SPECIAL *4-door touring sedan* **$996★**

YES sir, something pretty special happens when you turn the ignition switch, press down the starter treadle, and drive away for the first time in your very own 1940 Buick.

In that little act, you get a years-long jump on the other fellow. You step out in a car that is not only 1940's biggest news but the pattern for many a season to come.

Style? Just look the others over and see how they mirror the trend Buick began *a good twelve months ago!*

Size? Just try to find a car as long as Buick, bumper to bumper, for the same money — or one with a frame as husky and rigid.

Comfort? Performance? Appointments?

No other automobile on the highway has soft, *coil* springs all around that never need lubrication — combined with the steady rolling firmness of torque-tube drive.

No one else gives you a gas-thrifty Dynaflash valve-in-head straight-eight engine, much less a power plant electro-balanced *after* assembly to completely new standards of smoothness.

No one else has a Two-Way Direction Signal with automatic cut-off included — or standard equipment so complete that even a lock for the gas tank is included in the price.

And with the whole range of Buick's six dozen 1940 features you'll be No. 1 in the automotive hit parade, leading the way in a car that will still be full of big news many a season hence.

And the price? Unbelievable as it sounds, the Buick SPECIAL carries a price lower than some sixes — which spells "buy" in any man's language. Why not learn more *right now* from the nearest Buick dealer?

Prices begin at $895 for Business Coupe —Sedan prices start at $955—

★*delivered at Flint, Mich. Transportation based on rail rates, state and local taxes (if any), optional equipment and accessories—extra. Prices subject to change without notice.*

PUBLIC SCHOOLS—

Usually when we consider the youth of the nation and the program of our public schools, we draw forth our most high-sounding phrases, our most complicated allusions to "education for intelligent participation in democracy." This is as it should be—the public education of a nation's children is a serious subject. On the other hand, might it be possible that our verbiage hides what we wish to say directly?

Don Marquis, creator of the character "Archie," has his minute philosopher make this observation:

"I suppose the human race
Is doing the best it can,
But, Hell's bells, that's
Only an explanation,
It's not an excuse."

This is a flippant but effective way of saying what most of us feel when we survey the national and international situation today. All of us would like to see a better world—a world free of the nightmare of war, poverty, oppression and flagrant injustice. Most of us feel that with the youth of the nation lies the major possibility of improvement.

American educators are well aware of the trust and faith with which the men and women of this country regard them. They are earnestly trying to produce an educated, thinking public, knowing that only in this way is there a chance of making democracy work.

The schools merit the support of every adult. Moreover, they merit the intelligent interest and study of everyone who hopes to see our young men and women trained to think straight and assume the responsibilities of citizenship.

Do you know what the schools of America are doing? Have you visited the classrooms where your child studies each day? If not, now is the time to do so. Public Schools week, April 22-26, is planned with the very objective of better acquainting the general public with the program and every-day activities of our public schools.

Air Charges In Relief Set-Up

to him through a case worker. He said he had investigated it and had believed it true.

Kiltin, according to the affidavit, advised Coole to report only $8 of a $10 earned income. Under SRA regulations, each client must report his earned income so that deductions of an equal amount may be made from his regular relief payment.

The affidavit quoted Kiltin as saying that such a "large family should have money to buy shoes for the children."

Kiltin hotly denied the accusation and stood on his 12-year record in social service work as an indication of his fitness for the job to which he was appointed April 1.

"This row has brought to a head an unsatisfactory condition which has existed for some time in county SRA activities," declared James Ferguson, member of the county unemployment relief committee, in an interview yesterday.

"In my opinion," Mr. Ferguson said, "officials of the county SRA staff do not have a background of experience and training to provide them with qualifications for administering relief. As a result irregular recommendations have been made to grant relief. Furthermore, the county SRA staff has not cooperated with our committee in handling relief cases."

The committee of which Mr. Ferguson is a member has functioned without pay or expense account for the past seven years in this county to supervise relief work.

"We are going to continue our work," asserted Mr. Ferguson. "Efficiency must be had in handling local relief. Administrators must be qualified. We shall not tolerate such a condition which now confronts this committee."

Soufflés are Easy

says Dorothy Greig

FOR some reason the ordinary, every-day variety of cook is inclined to back away from soufflés as something rare and difficult to achieve. That's all "stuff and nonsense," as mother would say. It's not the making that's difficult. It's rounding up the members of the family and having them right there to eat it, the minute the soufflé

leaves the oven. Soufflés are not for the dillydallier They're for Johnny-on-the-spot.

The recipe given here results in a soufflé that puffs up and up most pridefully. Its sharply delicate cheese flavor wins it favor with men. And served with green salad and crusty rolls for luncheon or supper, it's a treat for anyone.

Tomato-Cheese Soufflé

2 tablespoons butter
3 tablespoons flour
¾ cup milk
½ cup condensed tomato soup
1½ cups grated cheese
¼ teaspoon dry mustard
4 eggs, separated

Melt the butter, add flour and cook until frothy Then add the hot milk and cook until thoroughly thickened. Stir in the condensed tomato soup and the grated cheese and heat until the cheese is melted. Remove from fire and add the mustard and egg yolks—adding one egg yolk at a time and beating thoroughly after the addition of each egg yolk. Beat the egg whites until stiff, but not dry, and fold them into the mixture. Pour into a well-greased casserole and bake in a moderate (350 degrees) oven 50-60 minutes or until firm in the center. Serves 5-6. (Put in pan of hot water while baking.)

Frances Hutt Dewey Charms Public Sunday

When Frances Hutt Dewey married the rising young attorney Thomas E. Dewey in 1928 and set up housekeeping in a modest apartment in New York City, she had no idea that a round dozen years would find the United States looking interestedly at her as 1940's potential First Lady.

The signal honors which have come to Thomas E. Dewey, Republican aspirant for the presidency, and indirectly to her, have in no way altered her innate modesty and feminine charm. She is still first and foremost Tom Dewey's wife.

And being Tom Dewey's wife, she believes, carries with it a responsibility to grow along with her husband, as a helpmeet, aiding his career by joining her individuality with his, and not branching out on her own.

This has been her philosophy. This will continue to be her philosophy. It explains the quiet almost shy manner which the public found so pleasing and commendable Sunday, when the Deweys visited San Francisco.

Among the Daly City group which enjoyed the Dewey luncheon and meeting at the Fairmont hotel were Joe Sarto, who was a member of the reception committee, Mayor John J. Fahey, John J. Fahey, jr., Louis Nava and Albert H. Boynton, publisher of the Daly City Record.

Slate Roofs

When the roof of a home is renewed, the matter of weight of the material selected must be studied carefully. If the old roof is of wood shingles, it is often possible to cover it without removing the old shingles, but if a heavy material, such as slate, is used, the frame must be checked to see if it will safely carry the added weight.

NEW DE SOTO OFFERS PUBLIC EXCELLENCE

"With reports on the excellence of its performance from recent purchasers of the new 1940 De Soto," James E. Donahue, Daly City DeSoto-Plymouth dealer states, "the increased buying response to the new line brings information of full-time production from the Detroit plant. It has been necessary to maintain car-a-minute production to keep pace with public demand."

"In all my years of experience with automobiles, I have never seen so much value for the money as is being built into our current models," continued Donahue. "In the 1940 De Soto, for example, besides increased horsepower and wheelbase, the bodies of the new cars are longer, lower and wider, allowing more head, hip and leg room. Present upholstery, trim and interior appointments would have been out of the question even a few short years ago except in expensive custom-built cars, yet are standard equipment in the 1940 De Soto.

"In spite of all the advancements embodied in the new line," Donahue concluded, "De Soto is priced even lower than last year. This is truly a buyer's year and the public is showing it in no uncertain terms."

Jefferson Wins Another Game In PAL Schedule

Jefferson won another league game on the PAL baseball schedule, Friday, by whipping South City, 9-5, at South San Francisco. This makes two games won and one lost in the league.

Left-fielder Roy Giusti added more color to his already colorful playing by catching another almost impossible fly. Giusti ran forty yards to get under a high one, and with the sun in his eyes and a stiff wind making it hard to gauge where the ball would land, got under it for the put out.

Line-up for the Jeffs follows:

Adreveno, cf	3	2	1
Huerta, c	5	3	1
Stephens, rf	5	2	1
Giusti, lf	2	1	1

Ragni, ss	4	3	2
Razzari, 2b	4	1	0
Christian, 1b	3	1	1
Percival, 3b	3	1	1
Total	32	14	9

Practice games last week were Jefferson 0, San Mateo J. C. 6, and Jefferson 6, Balboa 4. John Razzari pitched against Balboa and shows promise as a pitcher if he ever develops a fast ball. Jefferson's next league game is with Half Moon Bay, Friday, 3:30 p. m., on the Jefferson diamond.

Jeff Track Men Show Improvement

Jefferson's track team showed decided improvement over former seasons when they met the highly rated Commerce aggregation, Friday. The Jeffs lost 130-81, a vast difference from the last Commerce-Jefferson score, which was around 120-20.

Jefferson's Bittencourt won the shot-put event in the 110 division.

In the 120's Marcucci and Parker, both Jefferson boys, tied for first in the high jump. In the pole vault Everett took first, Marcucci dropping out to let Everett finish the event.

Firsts in the 130 division included Jones, high hurdles and 160 yard low hurdles; Lantz, high jump; Piestch, discus; Andriola, 100 and 220 yards; and Welch, 880 yards.

Second places in the 120's were Bybee in the shot put and 50 yard dash, Everett in the low hurdles and Luciani in the 220. Seconds in the 130's were McAndrews, 440 yards; Sabel, shot put, and Sorg, discus.

Jefferson's next meet will be with San Mateo, Friday, at San Mateo.

Frosh-Soph Nine Win Close Game

The Jeff Frosh-Soph baseball nine won another PAL game when they played out a tough and close game with Palo Alto on the Jefferson diamond, Wednesday, Score, 2-1.

While it looked like anybody's game until the end, the Papooses had the situation well in hand at all times. Nava pitched the first five innings and the boy showed a brand of fast ball that kept the Palo Alto sluggers puzzled and nearly hitless.

McKinnon hurled the last two innings, holding down his job on the mound as effeciently as he plays first base. He is developing into the fastest man on the team. Razzari, back on second after playing center-field, seems to have speeded up considerably.

At a practice game at Tamalpais, Thursday, the Papooses lost to Tamalpais 8-2. Coach Sirvain used the game strictly for practice, sending in subs so that his first string could watch the game, helping them overcome some of their own weak points.

Mission Creamery Wins Game In League

Wednesday's games were: Baroni A. C. won from Heights A. C. 54-17; Riff Raffs beat San Mateo Merchants 33-13, and Daly City Boys club lost to San Bruno A. C. 45-34. Scoring for Daly City were Johnson 10 points, Brosnan 8, Barghini 7, Savelly 5, Kennedy and Filios, 2 each.

Friday's card included a Mission Creamery win over Heights A. C. 55-14; a victory for the Saxons over San Mateo Boys club, 27-21, and a loss for the Daly City Boys club against the Riff Raffs, 43-22.

Making up the fifty-five points scored by Mission Creamery against Heights were Wilson 20, Shaw 12, Johnstone 10, Fleming 6 and Carlson 1.

40,000 STUDEBAKERS BUILT IN WESTERN FACTORY

Last week Studebaker completed the 40,000th car built at the Pacific Coast factory. Stanley Whitworth, vice president in charge of production for The Studebaker Pacific Corporation, and Ruth Stevens do a little hypothesizing as to how long a line 40,000 Studebakers would make. The fact is, if they were parked in a solid line they would reach from San Francisco to Ukiah.

Treaty of Ghent

At Ghent, in Flanders, on December 14, 1814, the famous peace treaty was signed which formally declared at an end the War of 1812 between England and the United States. News of the treaty did not reach this country until February and fighting was still going on in Louisiana.

LOOK lady! with JOSEPHINE HUDDLESTON

If you're one of those shy, lonely girls who just can't quite manage the blithe, easy manner which makes others quickly at ease in a strange crowd, regular bowling will prove to be your fairy godmother—one that will open wide the doors to companionship and popularity.

Many of the 3,000,000 women who do bowl regularly claim that much of their enthusiasm for bowling comes from being able to indulge in healthful physical exercise while enjoying the companionship of other women.

Because there are definite things to be done when one is part of a bowling group, shy girls are drawn into the action of the game rather than permitted to stand on the sidelines looking on.

Because shy, lonely girls have their mind on the game rather than on themselves, they are lifted out of the self-consciousness which covers their personality like a dull cloak and become sparkling individuals.

When the brain is burdened with thoughts of insecurity, of being afraid to make friendly overtures towards others, the body reacts by becoming tense, restrained and awkward.

Because of the healthful exercise, shy girls stretch muscles long tense and stiff. They relax and so gain poise.

Bowling teaches the brain new ideas, for it is a swiftly moving, physical sport, one that is keen and competitive. The brain has no time to muddle with personalities. It is busy with learning how to control the ball so that it hits the king pin in exactly the right place to send the tenpins toppling for a strike!

The mind occupied with such interesting and constructive plans, all the muscles react naturally, giving poise, gracefulness and personality.

Shy girls will find women at bowling centers interested in the game and in all other women who are interested in bowling.

Thus, a new girl—even a shy one—is quickly drawn into the crowd.

Happily occupied with the game, gaining confidence through the friendliness and help of other women bowlers, the shy girl soon becomes confident and radiant—no longer a lonely onlooker but a girl with a good game to play among friends.

'Light That Failed' Has Cast of More Than Four Hundred

Rudyard Kipling's vibrant action romance "The Light That Failed," opens tomorrow at the Daly City theatre, with a cast of over four hundred, headed by Ronald Colman, Walter Huston, Ida Lupino, Muriel Angelus and Dudley Digges.

Often called Kipling's most "virile" and "meteoric" work, "The Light That Failed" covers a full generation of English life at the close of the last century and includes in its broad sweep the brilliant Sudan campaign of the '90s which conquered that wild country. The action is built around the career of Dick Heldar, his childhood sweetheart, Maisie, and a street waif named Bessie who comes to play an important part in his life.

Heldar, portrayed by Colman, is separated from Maisie, played by Muriel Angelus, after they pledge eternal love as children in England. The boy finds his way into newspaper work where he is "discovered" and encouraged by Torpenhow, hard-riding war correspondent. Under Torpenhow's guidance, Heldar becomes a famous artist and the sensation of the London art world.

At the height of his fame he again meets Maisie, who also has become an artist. Somewhat jealous of Heldar's success, she refuses to marry him until she makes a name for herself. She is working on a painting called "Melancholia," which is severely criticized by Heldar, who, in a fit of pique, decides to show her up by making a picture with the same theme. For his model he selects the street waif, played by Miss Lupino. Bessie falls in love with Torpenhow, and when Heldar breaks up the romance she swears revenge. In the meanwhile, an old wound begins to affect the artist's vision. When he discovers that he has only a few weeks left before he goes completely blind he sets to work furiously to finish "Melancholia."

Companion feature on tomorrow's new bill is "Mexican Spitfire," starring Lupe Velez and Leon Errol.

ARTIST AND MODEL

Ronald Colman is artist and adventurer in Paramount's film of Rudyard Kipling's "The Light That Failed," and Ida Lupino is the model, whose career begins in the gutter and climaxes in an unforgettable vengeance. Walter Huston, Muriel Angelus and Dudley Digges are also in the cast of the film which opens tomorrow at the Daly City theatre. A large cast performs in the spectacular Sudan battle scenes.
